Issues or Rejections

Mail ballots can be 'rejected' in two ways - by the scanner when being tallied or a material omission. A material omission occurs when something is missing on a ballot's return materials, such as the voter's signature.

Voters were permitted to "cure" or correct omissions on their mail ballots up until noon the Friday after the election. 37 of the voters contacted for the Democratic Primary cured their ballots. 14 of the voters contacted for the Republican Primary cured their ballots.

Ballots that are rejected by the scanner are hand counted by a team of election officers. If voter intent can be determined, these ballots are counted.

Issue	Number of Dem Mail Ballots	% of Dem Mail Ballots	Number of Rep Mail Ballots	% of Rep Mail Ballots
Rejected by scanner/Counted by hand	157	2.6% of total ballots accepted	38	0.6% of total ballots accepted
Rejected for Omission	29	0.5% of total ballots returned	6	0.1% of total ballots returned
